International Organization And Global Governance

Synopsis

Featuring a diverse and impressive array of authors, this volume is the most comprehensive textbook available for all interested in international organization and global governance. Organized around a concern with how the world is and could be governed, the book offers: in-depth and accessible coverage of the history and theories of international organization and global governance; discussions of the full range of state, intergovernmental, and nonstate actors; and examinations of key issues in all aspects of contemporary global governance. The book's 50 chapters are arranged into 7 parts and woven together by a comprehensive introduction to the field, separate section introductions designed to guide students and faculty, and helpful pointers to further reading. International Organization and Global Governance is a self-contained resource enabling readers to better comprehend the role of myriad actors in the governance of global life as well as to assemble the many pieces of the contemporary global governance puzzle.

Customer Reviews

"International Organization and Global Governance should have a place on any international relations scholar's shelf. In addition to its sheer comprehensiveness as a reference work, it takes the crucial conceptual leap of focusing not on organizations, institutions, regimes, or any other piece of international order, but instead on the presence or absence of actual governance: the successful exercise of power to achieve outcomes. As one important chapter asks, who are the actual governors of the international system? The answers, with respect to many areas of international life, are surprising." Anne-Marie Slaughter, Bert G. Kerstetter '66 University Professor

of Politics and International Affairs, Princeton University, USA. It is impossible to understand global governance without recognizing the important roles played by international organizations and non-state actors. This volume brings together cutting edge work by experts in their various fields to synthesize actor based and issue based insights about global governance. Peter M. Haas, University of Massachusetts Amherst, USA. A comprehensive survey of the theory and practice of global governance in the modern world. Comprised of outstanding essays by acknowledged experts and filled with important insights, *International Organization and Global Governance* is essential reading for scholars and students as well as practitioners. David A. Lake, Jerri-Ann and Gary E. Jacobs Professor of Social Sciences and Distinguished Professor of Political Science, University of California, San Diego, USA. Never before has a book demonstrated so systematically that 'global governance' offers a useful lens to analyze world politics. Extraordinarily comprehensive, it will become a vital reference for academics and practitioners. Jean-Philippe Thériault, Université de Montréal, Canada. This volume brings together contributions from an outstanding group of scholars. It is an indispensable guide for understanding the full range of contemporary challenges of global governance and international organizations, from a variety of perspectives. Keith Krause, Professor, Graduate Institute of International and Development Studies, Geneva, Switzerland. This very comprehensive collection, which includes contributions from many of the leading figures in the field, is sure to be the principal reference work on international organizations and global governance for many years to come. John Ravenhill, Australian National University, Australia. Weiss and Wilkinson have assembled a magnificent set of chapters from leading scholars that simultaneously provides a tour de force of international organizations and a clear guide to conceptualizing and understanding global governance. This persuasive account of the history, power and authority of international organizations should be required reading for all students, professors and practitioners of global governance and international relations. Catherine Weaver, Associate Professor of Public Affairs, The University of Texas at Austin, USA. A tour de force! This meticulously conceived textbook on global governance and international organizations with essays by some of the world's finest experts will be a classic for scholars and practitioners from day 1. Jan Wouters, Jean Monnet Chair EU and Global Governance, Director of the Leuven Centre for Global Governance Studies, KU Leuven, Belgium. Extensive and rigorous, Weiss and Wilkinson present in a single volume the history, theory, cross-cutting issues and empirical cases vital to understanding International Organizations. This is a must have for scholars of IOs. Susan Park, Senior Lecturer in International Relations, University of Sydney, Australia. Kofi Annan was right: we are creating a global village. Hence, the need for

stronger global village councils becomes more pressing day by day. Despite this, few understand how spectacularly global governance – in all its manifestations – has grown and why it needs to keep growing to keep the world safe. Weiss and Wilkinson have done us a remarkable service by producing this volume now: it provides an indispensable guide to the fastest growing global industry. And it will be read and studied for several decades as the world continues to converge. Kishore Mahbubani, Dean of the Lee Kuan Yew School of Public Policy, National University of Singapore. The fifty chapters in this book, written by scholars from around the world, provide a comprehensive overview of the expanding agenda and participation in global governance. All readers will become aware of how they are involved in global governance, and how they might respond. Chadwick F. Alger, Merston Professor of Political Science and Public Policy, Merston Center for International Security Studies, Ohio State University, USA. The reach and scope of this collection renders it invaluable for situating the study of international organizations in the broader field of IR. Thomas Biersteker, The Graduate Institute, Geneva, Switzerland.

Thomas G. Weiss is Presidential Professor of Political Science at The Graduate Center and Director of the Ralph Bunche Institute for International Studies, The City University of New York, Research Professor at SOAS, University of London, and past-President of the ISA (2009-10). Rorden Wilkinson is Professor of International Political Economy in the School of Social Sciences and Research Director in the Brooks World Poverty Institute, both at the University of Manchester.

very interesting book to read... I have skimmed the book but not read it yet
