## Customer Reviews

Timothy R. Mayes serves as finance professor at Metropolitan State College of Denver. He holds a B.S. and B.A. in Finance and a Ph.D. in Finance from the University of Central Florida. His research

interests include portfolio performance analysis and reporting, portfolio theory, derivatives, and, of course, the use of spreadsheets in financial education.

Not the quantity of content I would expect for the price. Discusses high-level concepts but comes up short on demonstrating scenarios and Excel mechanics.

ordered for my course

Very informative and useful. Excellent reference material to use excel and expand your knowledge of concepts in Finance.

Good book, rented to use for a class and then returned.

By far the best professor I've ever had in school! Thank you Dr. Mayes.
