# Its A Dogs World (Name That Doggy): Dog Book For Kids

## **Synopsis**

The best method for getting a child to engage in learning is to give them subjects that they are already interested in and use it as a vehicle to teach them. It could be a favorite book or even a pet. Therefore, if they are interested in picture books, the books that contain dogs can be used to develop their imagination. At this point, a parent or teacher can ask them to imagine stories about the dogs that appear in these books.

## **Customer Reviews**

Its A Dogs World (Name That Doggy): Dog Book for Kids Kindle Edition by Speedy Publishing (Author) Maybe I expect too much, or maybe the world of quickly printed E-books is an unedited racket. I work in Quality Assurance, so when things aren't perfect, I notice. This is a great concept for a book, but poor editing brings it down in ratings for me. The book is filled with fabulous pictures of dogs, one hyena, and one guinea pig, and a kitten (what the heck!) The guinea pig and are side props with a puppies, but there is a lone picture of a hyena with the factoid "Hyenas aren't actually dogs. They are more closely related to cats." Then why have the dang hyena even

mentioned in the book. This will confuse children. Examples of poor editing, other than the hyena, only 2 dogs of upwards of 30 shown, are identified in the book, Labradors and Dalmatians. Why call a book "Name that doggy" if you're not going to "Name that doggy". Completely perplexing. Its A Dogs World (Name That Doggy): Dog Book for Kids is not a bad buy if you can get this book for free to have in your kid arsenal, but if you have to pay anything for it, I would advise against.

Great book for children to explain that dogs are more than just pets, that dogs are very intelligent and can be training dogs they can hear very far away they can see very well and they can smell very well, that they can do so many things and that they can live very long time, these are very important things to know for a child who is wanting a dog but is not really understanding the responsibilities of a dog other than what mom and dad tell them, I really enjoyed the authors educational view of this book and explaining this, I really do feel it could deter a child's fly by night want verses a child's respectful want for a dog as a pet. **DISCLAIMER:** I received this item at a discount or free for my unbiased review. I do not receive any monetary payment for my reviews, and I always keep them honest. Which means I will continue getting products at discounted price whether I write a good or bad review. If you have a question please feel free to ask a question before you buy, that is what that ask a question button is there for if you need help. I always try to research before I buy and I am sure you do too.

This is an excellent ebook for kids! As a teacher of elementary students, I would love to incorporate this ebook into a small group activity where I present a main idea or topic to the whole class and then they break up in small groups and discover more material on their own. My mind was continuously racing as I read through this book thinking of different projects I could make on this topic. It is the perfect age group to let them use a kindle to explore and what a better way to do so than with this ebook! I will totally let other teachers know of this opportunity and will keep this seller in mind with other ebooks available. I received this product free for reviewing purposes, however my opinions are all my own.

I really do get tired of saying this book is another example of poor writing, editing and organization by this publisher. The title is really bad. Nowhere are the dog breeds shown with the pictures labeled. One time there is a Dalmatian on the page after they talk about them, but if you do not know what one looks like you don't know you saw one. The photos are not labeled as usual for books from

this publisher. There are some "facts" about dogs and breeds of dogs that are incorrect. The photos are ok, but not labeled and so not of any use other than for a child to look at. If they left the title without the Name that Doggy they would have done better, but not much. The font is awful and is hard to read.

We are a family of readers. We love to read. We have three children (Boy - age 15, Girl Â£Â¢Â ª age 10 and Girl - age 5) While we traditionally like to read bound books together as a family we have purchased a kindle for our Â£Â¢Â ª"family libraryÂ£Â¢Â ª. We give each child an allotted amount of money to spend per month for new books for themselves. We often try to select childrenÂ£Â¢Â ª e-books that appeal to our younger daughter but to appeal to the older children to read aloud to her. This helps with their reading retention. The older children are more likely to choose a good chapter book. We also try to choose nonfiction books to help educate ourselves more. But there is always room for fiction in our lives . We like to write reviews on the books we purchase to help other families who maybe also looking to start or continue building their Â£Â¢Â ª"family librariesÂ£Â¢Â ª. Please see our review below for our review of this e-book version of Its A Dogs World (Name That Doggy).  
**PRO:** This book was filled with lots of awesome pictures. The clarity of the photos is remarkable.  
**AGE APPROPRIATE:** Yes. Great for children of all ages.  
**CON:** We did not find any Â£Â¢Â ª"ConsÂ£Â¢Â ª to adding this book to our family library.

**RECOMMENDED:** Yes. This e-book to our family and friends that have young children.  
**FORMATTING:** We thought the formatting of this E-Book made this book easy to follow along with.  
**DOWNLOADING:** No issue with the download to our Kindle.\*\*\* This review is based on my familyÂ£Â¢Â ª fair, honest, and unbiased review of this product, and I only buy products that my family and I will actually use. While we have received this item from the vendor at a discounted rate in exchange for my testing and reviewing the product, but this does not influence our review or opinions of this product or any product we review. If my review was helpful for you in any way, please click the [YES] bottom below, which enables me to continue writing helpful reviews. Thank you for reading our review.
