Grade Level: 8 and up

Customer Reviews

Obviously, if you're reading this, you know who Frank Miller is and why his run is so iconic. Volume 1 includes his first DD art, which was actually in the mediocre Peter Parker the Spectacular Spider-Man. It's staggering, though, to see the art instantly change when he jumps into the main Daredevil title and has his pencils inked by Klaus Janson. Really makes you appreciate Janson's contribution. Storywise, most of the comics here are not written by Miller. They're also not as good as the stories in volumes 2 and 3. However, this is worth getting for the first appearance of Elektra and a terrific story against Gladiator, who becomes a lot more important during Bendis' run. So, this volume is great, but it's not really "essential" to understanding Miller's run on the series.

Miller's artwork and writing are such a great fit for Daredevil, and I have no complaints regarding the stories here told. The only complaint I do have is that the collection isn't quite big enough. It introduces Elektra but doesn't include any of her stories with DD.

As always Miller puts his twisted mind into a character which was seemingly a lame duck. A whole

new take on Daredevil altogether. I highly recommend this read for everyone. Even if you don't like comics, Frank Miller can definitely persuade you to change your opinion with his brilliant story writing.

Note that the first half of this trade is just drawn by Frank Miller. He did not start writing Daredevil at the same time he became the artist on the book.

Awesome old-school collection

Just know that the first 2/3rds of the book are cheesy old school comics with Miller only doing the art. The third however is good when Miller takes over as writer.

This book is very good BUT it gets better when Miller takes over as writer. He is the definitive Daredevil writer.

Still Mindblowingly good
