The quality of the Kindle version was very good. However, the Kindle version does not give you include the access code that may be a part of your course requirement.

I ordered this textbook because it was required for and online class. It is one of the most interesting textbooks I've read though. It has lots of direct quotes and interesting facts. In my opinion reads kind of like a newspaper. I honestly don't like the idea of online teachers just assigning a chapter to read, but this book exceptional as textbooks go. I also like the online resources that come with it. The chapter quizzes have been especially helpful.

Textbok came in great condition with access code. Thanks!

I bought this new from and the shrink wrap was halfway open. I opened the book and the access code was missing. I will be returning it.

Came in like 3 layers of packaging and is in amazing condition. I really like Cengage textbooks because they are very easy to understand. This should be a good class.

Followed class. Good resource.

super easy read for a textbook

Its a good textbook and conveys the information well but if your college class doesn't require you to have it then don't buy it. Turns out I could have passed the class without the book but don't let that determine if you buy it or not.
