Age Range: 8 - 12 years

Grade Level: 3 - 7

Customer Reviews

I purchased this as a gift (requested) for my 9-year old daughter, who very much enjoys playing PopTropica. She refers to it frequently and it has enabled her to finish several islands with a much lower level of frustration than she might otherwise have had :) The book includes a very nice paper map--be careful not to tear it when you pull it out!! I would definitely recommend this book and hope that an updated version will be released that includes the more recently created islands.

One of the best poptropica books ever!!!!!!It gives you tips and LOLs. And most importantly, it gives you guides for different islands 2007-2011

My son is 8 (got this guide when he was 7) and has read this guide many times over. He likes to go on the computer and play Poptopica. He says that this guide is not as helpful for the Nintendo DS game but loves it for the computer version. This guide gives you step by step directions/tips on how

to beat some of the worlds.

My son wanted this book for a while and he just loves it! It shows him how to get to certain areas that he would have never figured out how to do. Both my kids (one girl 11 and son 10) have alot of fun on this website. It's nice to have a good clean site without any worries.

My grandson loves this game! As I watched him play it and he filled me in on what he was doing, I would definitely recommend it and/or buy again if need be. I like the thinking involved and the decision-making needed to play well.

Tried to find this item for my son, this was the only web site that I could find, received item and my son was soooooo excited thankyou for your quick and efficient service...

my 7yo, who does not enjoy reading, loved it. well, let me say, i bribed him into reading it. the bribe went something like this....you wanna play Poptropica online?? then read the chapter first. it worked. he read it, he loved it. it is an easy, entertaining read, as i knew it would be for him. he completed the book, played the game, everyone lived happily ever after.

bought it for the kids. they played the game for a few months. now they don't
