Customer Reviews

This book and CD are great. My only complaint is that the actual voices from the movie are only used a little bit. And definitely much less than the other read-along Disney books we have.

My girls couldn't wait to have this story book. We love all the Disney's CD read-along, they are so so good, So many details, and sounds. Just great.

nice little book with a great audiobook cd of the full moana story.

Fun way to read along with the actual voices from the movie. The hardest part is finding a CD player anymore.

The previews to the movie make it look kind of funny but the audio book is so dark and gloomy. Not a "fun" one to listen to.

My grandkids loved this movie so I opted to buy this for car trips. They love it and I've been told it follows the story line of the movie! The pictures are bright, the narration is perfect and keeps them interested and the CD is of good quality...crisp and clear in the car CD player.

Moana mania has definitely hit our house, and this is a beloved addition to our read-along library! My kids especially enjoy this in the car, and it's one of our favorites as well due to the heroism and bravery of Moana. She's a great role model for young girls!

The kids love listening to this over and over again. Only gave three stars because the book, although I realize it's inexpensive, now has tape on every page along the binding. Every page. These books are meant to be read and reread, so up the price a little and bind better.
