Her Rogue Viking

Synopsis

Though Fiona puts up a brave fight when her village is raided by Vikings, she ends up being carried off over the broad shoulders of Ulfric Freysson, the leader of the Norsemen. The stern, ruggedly handsome warrior quickly makes it clear that she belongs to him now, and her best efforts to escape merely earn Fiona a painful, humiliating switching on her bare bottom. Her captor's bold dominance sets Fiona's passion ablaze, and when he brings her to his bed she cannot help begging for him to claim her completely. As Ulfric begins training her to please him in any way he demands, Fiona finds herself falling in love with her new master, but she soon realizes that there are those among his people who still see her as an enemy. When her life is threatened by a member of his own family, will he stand ready to protect her no matter the cost? Publisher's Note: Her Rogue Viking includes spankings and sexual scenes. If such material offends you, please don't buy this book.

Customer Reviews

To me this book felt slightly different than some other books that I have read by this author. It is not totally what I expected, however it is a enjoyable read. The writing is exceptional, myself learning a

couple of new words along the way. There is plenty of explicit sex and domestic discipline. It included more classic BDSM than I usually like except that a similar amount in Her Alien Commander and some other works seems perfect. It may be the story's historical time period and setting that somehow seem not to fit with underlying themes of acceptance and forgiveness, with some of the story scenes, with POVs of certain characters, and with the rapidness in which cultural change occurs. Because of this, as a reader, I felt like I was constantly being swung back and forth between harshness in various forms on one page and an atmosphere of moral virtue on the next page. On the other hand, there were some fantastic characters in this story, so much so, that I found myself wanting the story of Taranc and the story of Gunnar instead of Ulfric or in addition to it. Both of these other male characters were heroes. The book is neither short nor long. My preference would have been to have had a longer book with all three of these tales intertwined over a bit longer period of time. All in all this is a very good book, just wishing to know what happened with Taranc and Brynhild after his departure and also how the relationship came about between Gunnar and Mairead and what was going on in Gunnarsholm. This author continues to be a favorite; and, this book will appeal to all those who enjoy erotic historical romance.

I have read several of Ashe Barker's books but this hands down is my favorite. I was surprised at how much this story drew me in. I was hesitant because Viking stories are a gamble for me. Often, they seem so over the top that I do not end up liking the hero. I do not enjoy a significant amount of humiliation. I want the Viking to be fierce but at the same time clearly fall in love with the heroine and treat her well. This story fits that bill and has a surprisingly original plot to boot. This was a well-written, short book with lots of happiness and no heartbreak. I thoroughly enjoyed!

This was a different kind of Viking type book. I liked it and would tell someone it is worth the time and money. It was what I feel was not very realistic for the time but if you are not one that gets tied up in the "that's just wrongs" I think you might enjoy this. I will keep a lookout on Ashe Barker books because I liked and enjoyed the way she writes her characters but on the whole I like the Fiction to be in the story around the characters/relationships and the rest sticking as close possible to the time and historical setting.

This has a fantastic story line. The characters are easy to fall in love with, the descriptions to details were done nicely and so easy to visualize and the dialogue flowed so well with these characters to make you feel as if you are a part of the conversation. I really like strong, sassy heroines and Fiona

is the perfect mix of strength in submission. I would recommend this story to everyone.

This is the first book I've read by this author and unfortunately, it became a DNF. It's not bad. I've read much worse. I just wasn't able to really get into the story. I felt nothing for the heroine and I could see the the conflict coming. The deflowering scene was good but the rest of the story just never caught my interest to keep me reading until the end. Sorry.

You have a wonderful gift lady Barker and I am so happy to read your work from your library. This is not my first but one of my best books that I will enjoy reading over. Sandra Hill might agree with me one of my first authors 6 years ago. Here books are not for Adults only but even she would enjoy your book. Continue success. DH from New York City

I enjoyed the story line a lot. I like reading about the trials and tribulations that the couple's go through. It's got tossed scenes and discipline actions as well but there is a story to be had.

Alright, I really enjoyed this one and highly recommend it. The author did a great job describing the scenes where I could really picture them.
