Fifty Readings In Philosophy

Synopsis

Fifty Readings in Philosophy is a flexible and affordable collection of classic and contemporary primary sources in philosophy. The readings cover all the main topics of Western philosophy, each one carefully edited to be long enough to present a self-contained argument but not so lengthy that students lose track of the main point. Introductions and explanatory notes make the readings accessible to students. All these features have made this book a proven pedagogical success and a best-selling reader in introductory philosophy.

Book Information

Paperback: 552 pages

Publisher: McGraw-Hill Education; 4 edition (June 17, 2011)

Customer Reviews

Donald C. Abel is Professor of Philosophy at St. Norbert College in De Pere, Wisconsin. He holds a B.A. in Philosophy from Gonzaga University, an M.A. in Philosophy from Tulane University, a Ph.D. in Philosophy from St. Michael's Institute, an M.Div. in Theology from Loyola University of Chicago, and a Ph.D. in Philosophy from Northwestern University. He is the author of *Freud on Instinct and Morality* (1989), *Theories of Human Nature: Classical and Contemporary Readings* (McGraw-Hill, 1992), *Fifty Readings in Philosophy* (McGraw Hill, 3d ed., 2008). He is the editor of *Discourses* (www.primisdiscourses.com), an electronic database of philosophy readings that is part of Primis, McGraw-Hill's online resource for creating customized textbooks. Professor Abel has received two awards for excellence in teaching and an award for outstanding scholarship. He is a member of the American Philosophical Association, the American Catholic Philosophical Association, the Society for Ancient Greek Philosophy, and the Society for Philosophy and Psychology.

This book was required reading for an introductory university level course in philosophy. As such, this book serves as a compilation/collection of fifty philosophical works which aim to provide a basis in philosophy on a range of issues/topics, from ethics to religion to politics. The individual works are grouped accordingly based on these topics. Included within the book are works from those philosophers you would expect, such as Plato, Aristotle, and René Descartes, and then signature works from a variety of individuals with unique viewpoints and philosophies, such as Karl Marx and Martin Luther King Jr (two individuals who couldn't be more different). For the benefit of the reader, biographical sketches of the individual writers are provided along with summaries to help the reader retain the central theme/purpose/point of each work and/or each section. These readings are not for everybody, but if you'll give the book, and the individual works, a chance, I'm sure your knowledge base will increase with even a little change in your worldviews/opinions. Enjoy!

I purchased this strictly for a philosophy course I was taking. However I must admit the book is one I will keep in my collection, for it is well published and includes all the basics for an Intro to Philosophy course. I highly recommend for both personal and academic uses. The book came in good condition and on time. I would definitely consider purchasing any book from this seller again.

This was the only assigned reading for an introduction to philosophy course. Unfortunately it's not enough. I did not like this book because there was not enough context given for each reading and even worse the readings were chopped to bits to the point that in more complex readings it was hard to understand the author's intent.

Text book... what can I say? I was forced to buy it.

its a great book, but the quality of the book I have is used. it has writing but its still readable. is it worth the price? I don't think so.

Quality of the book was above average.

I was impressed by the diversity and thorough amount of sources this book presented. Abel is also a very good editor. He provides very useful summaries and biographies of the writers. I was also

very impressed by how he divided the selections into viewpoint-appropriate categories. This is a very valuable resource for philosophical topics.

Book exactly as described and sent in a timely manner! Very pleased!!!
