IB Biology (2nd Edition) Student Workbook

Synopsis

The second edition of BIOZONE's popular student workbook for IB Biology provides the core and AHL content in a single, comprehensive volume. The workbook's structure accommodates both an integrated and spiral approaches to the course, with core material for both SL and HL material clearly identified and easily located. Each chapter is prefaced with clear learning objectives based on the Understandings, Skills, and Applications central to the IB Diploma Program for Biology. Objectives and content to address Theory of Knowledge and International-mindedness are integrated throughout. New features include the use of an activity numbering system and cross referencing to linked content, facilitating easy use of the workbook and addressing utilizations throughout. The activities, which form the bulk of the workbook, provide highly visual, student-friendly delivery of content. Activities are concept based and have been written specifically to develop skills in critical thinking, data analysis, and problem solving in students of all abilities.

Customer Reviews

Love times a million. Moving to new science standards & this is a huge help!

These pages are great for concept review or as a sneak peak into the days lesson!

Excellent study guide and practice for students. Super for getting students to be able to interpret data.

Nicely done
