This is a good place to start one's journey into sound therapy. Recommend this book & check out the website.

'The Sonic Keys' is a fantastic introduction to the capabilities of sound, light, and frequency and the myriad powerful benefits possible by consciously applying these tools to your spiritual and evolutionary growth. I highly recommend this well written and understandable book as well their amazingly effective and inspiring multi-dimensional 'DNA Activation' soundscapes. They have opened up new worlds for me.

The higher energetics within this book are profound, it lifted my understanding and approach to the music many many times.

Skinny little book with rudimentary concepts...not worth the money...was expecting a true sound healing book...like Jill Mattson's, Don Campbell's, Mitchell Gaynor's, work or the work on many other excellent sound healing expert's. This book is not in that category. It's basically an intro into

buying into more increments of the writers' research...based on making money. ..disappointing.

This is an excellent book about successfully manifesting our desires to be used in conjunction with the powerful sonic CD's of Shapeshifter (JoAnn and Gary Chambers). This book discusses many of the stumbling blocks of why even with our best intentions and efforts, our manifesting fails to produce the desired results, and so much of has to do with our frequency, the rate at which our energy is resonating around and through us, determining what we attract back to our physical reality. Really the one key to being able to attract what we desire is to constantly keep our vibrational frequency in a High state. And this book discusses in detail how discordant patterns we hold in our energy matrix act to block our best intentions. So the necessity to clear these blocks that sabotage us, along with the use of these wonderful powerful Soundscapes of high frequency sonic sound that act to shake out our lower frequency patterns and create a much more powerful field of attraction in our energy matrix, so successful manifestation becomes easy.

I've been working with the music of ShapeshifterDNA for years now, and as a sound healer, I find the way this book talks about some of the basic elements of sound to be inspiring and refreshingly clear. Gary and JoAnn Chambers are shamanic artists that have created a magical, multidimensional, musical universe that interplays with 3D reality in an incredibly complex and beautiful way. This book, an introduction to these concepts, breaks down that complexity with easy-to-grasp nuggets of how it all works. This book is primarily for those interested in delving into the sea of ShapeshifterDNA compositions for DNA Activation and explains how to either dip in a toe or just jump right in.

These folks really do a wonderful job. Over the years, the work they produce has been my guideline. Their website also has great information, & a free .pdf & .mp3 starter pack, so you can get a feel before you buy. activateyourdna.com
