This is an excellent resource for anyone traveling in the Northern Virginia area. The maps are well laid out and very clear.

it was great....thanks a lot!!!

the picture is deceiving, it says 42 edition but ours was 34. it worked for its purpose but it is false advertizing.

When I moved to Northern Virginia, from India, I found myself having to learn very fast how to motor around the area. In this, ADC's Street Map of Northern Virginia was a life-saver for me. I have lost count of how many hours I have spent poring over its pages to find out how to get to stores, offices and touristy places. The individual page maps are well laid out with colors used thoughtfully to contrast, without being garish. The text, by and large, is easy on the eyes, barring the smaller street names which require some squinting. Exhaustive index pages make finding streets and locations a piece of cake. Best of all, the maps keep in mind the differing perspectives of drivers as well as

pedestrians. In fact, now that I am well familiar with the area, I often find myself flipping the pages just for the sheer pleasure of it or to find something new. I must mention in particular the layout maps of the local airports, which are a great help for the unwary. For anyone who has just moved into this area or who wants to explore and discover the area better, there is no better book. Highly recommended!

This really should be titled "Fairfax County" because that's about all it covers. Or "DC suburbs" perhaps. I found the "Regional Northern Virginia" atlas to be a lot bigger help in househunting in Northern VA as it covers 4 whole counties. Just read the descriptions carefully to make sure which "Northern Virginia" atlas you need. ADC maps are fantastic though.
