Customer Reviews

I am a 4th grade teacher and I read this book to my class. Most of my students LOVED it and always begged me to read more. The story line is very engaging and quick-moving. It was a great way to review fairy tales. Even as an adult I was very entertained by the adventures of these two kids as they journey through the Land of Stories and meet all of the fairy-tale characters we grew up reading about. The reason I gave it 4 stars is because of the language. There is an occasional swear word which is just unnecessary. Obviously I didn't read those words aloud, but a few kids following along know that they were there. I have a hard time recommending a book to kids that has language that I wouldn't want them using.

One of the best books I've read. It keeps the attention all the way through. The story is engaging

from beginning to end. The characters are fully developed, lovable and fun. My 11, 13-year-old and myself read this aloud to each other. I can't believe how much we all laughed. It had a little bit of everything. Must must read. We've recommended it to so many people already.

There just wasn't a whole lot going on with the story book I understand of course that the writer was introducing you to The Land of Stories but there just wasn't anything really all that interested to the book I could barely make myself finish it. To be fair the author is a good actor I just can't say that I'll be reading the series.

I bought the first book from the kids school book order and my two boys and I are hooked. We have laughed (and Mom has cried) and we have thoroughly enjoyed this first book. We are going to order the rest of the series to keep our nighttime story routine going. my husband and I loved Chris Colfer in Glee and we are so impressed with his writing talent! A great find for our family!

This book was recommended to me by a student. It was a quirky read with a new twist on some of the old stories. If you like fairy tales this is a great choice.

good read, my one granddaughter loves this series and asked me to read. I can see her 10 year old infatuation with the book. However, not real sure I want to read anymore. And yes, I almost always read the books my grandkids and their Dad have read.

I read on my 11 year old granddaughter's poster that her favorite book was The Land of Stories. Ordered it that evening and found it entertaining. Finished the last half just this evening. The stories come together and have a lot of clever twists. Have something new to discuss with my granddaughter.

This book opens up the child's imagination into fairytale story's. Some kids in the world think fairytales are for little children, but that is not true. This fantastic book opens the fairytale magic in the child's mind which makes them feel like a fairytale character. It took me only 2 days to read it because I really enjoyed this book. I didn't even stop to get a snack or go to the bathroom! I believe every child needs a chance to read "THE LAND OF STORIES" book series. Sincerely, VASILISA
