Christine SchÃfer was born in 1962 in Germany. She worked as an architect before raising her three children. She has been passionate about magic wool for many years and mostly creates detailed figures. She leads workshops and presents her work at exhibitions.

I especially enjoy the lovely watercolor illustrations scattered throughout the book! It makes the book

more enjoyable to just browse through! But the simple instructions for the wool figures make the book helpful. The various figures are inspiring for me to create my own versions of figures. I just have enjoyed looking through the book for entertainment, and can also use it to further my wool needle felting interest. VERY nice book!

The book covers the various ways of felting information, it identifies the basics of forming a stable base for items being felted. There are many different styles of wool Mermaids, Fairies, and Nymphs in the book to choose from. I think it exceeded my expectations.

This was rather disappointing. I do a lot of crafts and I just didn't feel this was that great a resource. But the pictures were nice.

It's a magical book! I can't wait to start making Fairies out of roven wool. I'll better know how to review book once I've begun the process. But the photography and the designs are wonderful!

this is a good book with good information on making wool roving dolls. I tend to needlefelt very firmly so this book will hopefully help me loosen up to make the fairies.

Love this little book. Clear, simple instructions and lots of beautiful photos.

A beautiful book but lacking good instructions. Maybe due to the translation from German.

Nice product, prompt service. Thank you!
