Irvine's Writing About Music: Third Edition

Synopsis

(Amadeus). This thorough revision of a classic handbook is designed primarily as a guide for students writing papers or theses on musical subjects, but is useful for anyone writing about music for publication. It deals with the mechanics of scholarly writing, citation and documentation, as well as the nuts and bolts of punctuation and abbreviation. But it is also a sensible guide to good writing. In this edition, Mark A. Radice has taken into account all the technological changes that have transformed writing and publishing while preserving Irvine's voice. He has also added a new section on incorporating music examples in a written text.

Customer Reviews

This is an amazing desk reference for the musical student and/or teacher. It is geared toward research paper style and writing for topics in the discipline of music. Essentially, this the Chicago style of writing, except with more guidelines for citing sources such as musical records, CDs, tapes, videos, as well as music sheets. Extremely helpful. It yields less confusion concerning the writing of in depth music papers.

This book is probably okay for junior-level undergraduate students who are writing their music papers, but will be too simplified for the more advanced music students who want to produce a good essay/term paper. The parts on 'Documentation' and 'Bibliography' tend to be incomprehensive and outdated. Very often, additional manuals are needed to supplement the lack of information,

particularly when it comes to 'Citations.'
