Customer Reviews

Enriching your home with smart gadgets make your life enriched with great things. Echo Dot is one of the most futuristic and useful gadgets ever. It has so much potential and so many uses. This book will help you to know more about your Echo Dot. This book really explains all the options of Echo in a very understandable way. This guideline is perfect for anyone to understand and itÃfÃ¢Ã â Ã â,,çs very easy to follow. After reading this book, you will be able to use your Echo better than anyone like an expert. So grab a copy now!

I often have to Google almost every small question I have about Echo starting from the set up. And various results give various answers sometimes. Not now though. This book set me straight and gave me direct instructions about it all. ThereÃfÃ¢Ã â Ã â,,çs nothing more I can say other than that this book was a real support.A detailed and informational book. It seems almost as if the author hasnÃfÃ¢Ã â Ã â,,çt left any space for flaws. I found complete guidance in this book.

This book has got to be renamed the definitive user manual due to it's extreme thoroughness!!! I knew a fair amount about the echo dot before I read this book, but now I can say that I could set it up an use it to its full potential. Would recommend this book for anyone considering getting one!!!

For God's sake get an editor. Not much of significance here, almost worth a dollar.

Ordered, never got charged or told what happened. My request went into a dark hole. Never received order or information.

Helps you with understanding all Alexa can do for you.

Everything in this book is readily available from demo videos, Alexa emails and other Alexa instructions. Waste of time and money.

excellent information
