## **Customer Reviews**

As a pioneer in Integrative Medicine, Dr. Robert Milne recognized the potential of providing his patients optimal medical care by using complementary methods that proved an understanding of one's medical condition and therapies that produce results. He has successfully treated over 20,000 patients throughout the United States and world-wide. She is a writer, and editor who specializes in health and medical titles with more than a dozen books.

My cat Herb developed cancer at the site of a rabies shot given to him by a previous owner [I don't vaccinate my animals.] The rabies shot is supposed to be given in the leg so when cancer develops the leg can be amputated. The rabies shot given to Herb was below the back of his neck. Typically cats with cancer from a rabies injection die in a matter of months. POLY-MVA kept Herb alive - and strong - FOR OVER 6 YEARS! I presently have a small rescue dog 16+ years old. I started giving her POLY-MVA two months ago. Her energy level has soared and now she can run for blocks!

Very interesting how this product came about. I use Poly-MVA to help dogs with cancer.

most interesting information---my friend lived 34 months of quality life longer with stage 4 lung

cancer---once she stopped---died in three months.

This book was very informative and gave examples of people who have used Poly MVA successfully and how to take it. If you are a cancer patient or caregiver I would encourage you to read this book.

Would recommend this product to anyone looking for alternative medications. It is very useful in your search for an excellent answer.

This was a gift....they loved them....also, they were delivered 1 day ahead of schedule just before Christmas. They was wonderful.

The future of cancer cures is here.

Fantastic... a life savor. G-d Bless.
