Customer Reviews

Pavel Tsatsouline, is a former Soviet Special Forces physical training instructor, who helped Dragon

Door Publications initiate the modern kettlebell movement.

I dislike Pavel's practice of writing very topic-specific books and encouraging you to buy his other publications. I get that he does it to make money - I just prefer people who focus on all-encompassing works to inform and train. That being said, the Hardstyle system is effective enough that I can't really complain about anything but the (sometimes blatant) marketing. The principles match the ones I've learned from the best instructors I've had, and they've produced a fairly strong core. The writing is concise and understandable. The humor is a nice touch. These are far from bad books. Just note that they are very objective-specific. This book alone will not take you from zero to hero - if Pavel is to be believed, you'll need to shell out for his whole library for that to happen.

Pavel is the man. Some many great physique hacks that I have never read before. All of Pavel's books have some many great nuggets of information.

most of the exercises I already know...thought maybe I would learn a bunch of new things and that was not the case...

Excellent source of information regarding ab work, breathing and approach yo better health!

I have a lot books and videos from Pavel. Also i have a lot others authors to, so i can compare. I tell everyone with confidence you will never wrong with any Pavels products. He is the best in mio.
