Happy Family: A Polyamorous Yaoi Romance

Synopsis

After a whirlwind romance in Paris and a wedding on top of the Eiffel tower, Akimi and his new husband return to Tokyo. Though his husband's family starts out rather cold to him, the young housewife is determined to make them fall in love with him... Unbeknownst to him, he is a little too successful in this endeavor. When he realizes how his new family feels about him, how far will the sweet-natured boy be willing to go to make everyone happy? This is a fun, filthy romp that stretches the limits of male-on-male romance (and the uke's anatomy). Please enjoy responsibly!~35,000 words

Customer Reviews

I'm a fan of Amelita Rae's work. However, I didn't like this novel at all. It wasn't badly written or anything and the sex scenes were as usual very hot. But I was definitely bored with them because of the whole concept behind it. It's not that I was bothered by the incest or multiple partners, it was just in my opinion plain and boring. I skimmed through a lot of it, including the sex scenes, until halfway to the end of the book. I just gave up on reading the rest. I don't like giving up reading books like that and it happens rarely, but it was just too pointless. I don't like to give bad reviews,

but it's definitely not her best work. The cover art is as usual beautiful though. And if you're just looking for a kinky sex read, then this book is definitely for you. I still love this author and I will definitely keep reading her work.

I love this author and this is a well written piece of smut. The story has a good sense of humor and was a fun read. There is only one thing I feel are worth mentioning as a nitpick: There are a LOT of sex in this book. I do not think it would be an exaggeration to say that 70% of the pages in this book are used to describe people having sex. There are sex to the point that there are not much room left for story or character development. Even if those, to an extent, are present and by no means bad they serve mostly as a setup for the sexual escapades. If that's your thing, you will love this book. If not, you may still like it. It's definitely worth to find out for yourself if you are at all interested in the genre.

The book had 1874 locations on my kindle. The book was about a boy, named Akimi and the Endo family. Akimi was a 21 year old, eager to please, lusty and insatiable photo journalist. The Endo family included, Endo Daichi the 4th, who was 42 and Akimi's husband. Endo Daichi the 3rd was Akimi's 66 year old father in law. Endo Daichi the 5th was Akimi's 21 year old step son. Endo Daichi the 6th was Akimi's 18 year old stepson. The wealthy and insatiable family was a bit cold towards Akimi, at first, but they quickly learned to love the pretty young man. The book contained lots and lots of hot oral sex and anal sex scenes, with M/M/M/M and M/M sexual interactions.

This book is mostly really hot erotic guy on guy action. The two main characters are very sweet to each other so there is still a bit of romance, and this seems a lot less rapey than some of the other yaoi books I've come across which I appreciated. SPOILERS, but fair warning that there is some serious incest happening with this family in regards to 4 family members sharing the main character within the same scene. If you have a problem with that then skip it. Otherwise, it was some good smutty fun that has a cute and what I thought was a surprise ending. I will be checking out some of the authors other work in the near future.

Not quite what I was expecting, but totally HOT, HOT, HOT!!! Well written and fast paced. Likeable characters all around.

At first I thought that this would be another smut story with no plot. Was I ever wrong. The plot was

nice and cute. For a moment, I had a few tears in my eyes, but I was laughing myself sick as the story progress. If you don't mind the thickness of the smut, then this book's for you.

My most favourite story so far. I never like 3some, but only this story changed my mind. However, I cannot like this genre for any other story. Thanks for publishing, Amelita!

This was a totally fun very naughty pleasure. It was written beautifully and I felt that the main character was super fortunate to have received so much love from the Endo family. :) The ending was adorable and I really wish that there was a book two to explain the relationships between everybody else. Overall this was a wonderful and taboo fantasy. :)
