Great book with plenty of recipes amazing dishes, what more can I ask for? You'll definitely need this book if you want to start eating healthy. My favorite so far is the Sicilian Olive Chicken...
hmmmm

Easy to follow recipes with ingrediance that anyone can find at their local food market. All of the recipes I have tried are delish, and we look forward to trying new ones each time and going back to well loved favs!

Been looking for low carb foods and found this cookbook, filled with delicious breakfasts, lunches, dinners, side dishes, desserts (yes real low carb desserts), and beverages. Very impressed and can't wait to try them!

The recipes are so easy to make. Just found out I'm a diabetic and the recipes are for breakfast, lunch, and dinner using fresh herbs and ingredients with each meal. The cookbook covers everything. Thank you for writing this fantastic cookbook that makes cooking easier.

Unfortunately the book doesn't have any nutrition facts whatsoever. The recipes are rather simple, which is a benefit, but it lacks on instructions in between. There are no pictures and it seems that the author just tried to get as many recipes in as possible, disregarding the missing information. Also, as per other books I've seen, carbs are cut out a lot, but replaced with fat, which isn't going to help if you are trying to lose weight. Overall a poor job.

Good low carb recipes

Low carb eating is really important if your trying to get healthy, so this 365 recipe book was perfect for me for all year around eating. I loved loved loved the garlic mashed potatoes, flourless peanut butter cookies, and crepes! Emma explains how to prepare each recipe in a short, succinct manner, then moves on the next delicious idea. Its written well with lots of mouth watering recipes. What

more could I ask for? Great cookbook.
