Solid Foundation: An Oral History Of Reggae

Synopsis

Solid Foundation is the definitive history of reggae, from the earliest Jamaican innovators of the 1940s to the new stars of the 21st century. Drawing on more than 300 firsthand interviews, this landmark book tells the fascinating story of some of the most compelling characters in popular music. It features a diverse range of pioneers, such as The Skatalites, The Wailers, Jimmy Cliff, and Lee 'Scratch' Perry, dub legends such as Augustus Pablo, Prince Jammy, and Scientist, as well as dancehall giants like Elephant Man, Beenie Man, and Buju Banton. It details the entire evolution of Jamaican popular music, including ska, rock steady, roots reggae, dub, dancehall, ragga, and more. First published in 2003, Solid Foundation was widely praised as "a cracking read" and "a necessary work". This fully revised and updated edition brings the story into the 21st century with new chapters on the key performers of recent times and extensive additions throughout.

Customer Reviews

'The wealth of detail is mind-boggling - you almost want to study every paragraph twice. Take a bow, Mr K, this is a cracking read' Mojo 'The definitive history of reggae told through 100 exclusive interviews with the genre's greatest innovators' Sunday Herald --This text refers to an out of print or unavailable edition of this title.

Born in San Francisco but long resident in London, David Katz is author of *People Funny Boy: The Genius Of Lee 'Scratch' Perry* and *Caribbean Lives: Jimmy Cliff*. He also contributed to *The Rough*

Guide To Reggae, A Tapestry Of Jamaica, and Keep On Running: The Story Of Island Records. Over the last 25 years, Katz's writing and photographs have appeared in many international periodicals and music books, and he has coordinated and annotated over 100 retrospective collections of Jamaican music. He has also co-hosted reggae radio programmes on three continents, released original records in the UK and France, and contributed to various radio and television documentaries and feature films, while his Dub Me Always DJ nights are a regular feature of London's musical nightlife.

This is a must have for the serious reggae fan. There is a whole heap of information here and might be too much to digest for the casual dabbler in the genre but if you, like myself, are really into it then this epic volume is essential! One love, Jimbo Jimbo

Readable, but just barely. There wasn't much that was new here, to me, and much of what's there seems trivial. Or at least, not presented in a context that makes me want to keep reading. I much preferred the Lloyd Bradley book about Jamaican music.

Great cover.....He Who Feels It, Knows It.

I bought this book as an additional reference book for a project that I am currently working on. I am not disappointed.

Essential reading.

The books that have been available on the history and background of reggae have (almost) always been organized around the rise of Bob Marley and the Wailers and have (again, almost) always shown an overconcentration on what went on in the UK (as opposed to Jamaica). Katz's book is blessedly different. For one thing, it's an oral history (as opposed to a researched/analytical history) and as such, he lets the artists and producers and other figures speak for themselves. This gets the reader much closer to the source than any other similar text. The story also unfolds in the same way that a bunch of guys shooting the breeze in a bar might tell it which I found extremely compelling. It is also the very first book on reggae that made me really understand the nature of the connection between London and Jamaica (besides just asserting a large expat community in London). Not only that, but it's the first time I remember reading anyone giving credit to the NY scene as well. Because

of the anecdotal nature of the book, it's hard to hold the writer accountable for it's weaknesses. It's not really set up to be a research tool (it's hard to find specific facts or specific stories) and after reading it for a while, you realize that there are several voices missing from the narrative. Some have been exposed to death in other places (Marley, Peter Tosh, Lee Perry) but there are others I found conspicuous by their absence (Inner Circle, Brigadier Jerry, Yellowman). Finally, I just LOVE the focus on musicians. These guys are the real heart of reggae but have long stood in the shadows of the singers and producers.
