Customer Reviews

This book really assisted me in my studies of evolution. "Good information." Loved the fact that our true timeline is given in an easy way to comprehend it. Two thumbs up!

This book supports the evidence that the bible gives us that we exist because of Creation, not evolution.

great insight

Outstanding ! After studying this subject for over 25 years, I am fascinated with Kent Hovind's materials on the issue of creation, whether or not it also deals with evolution. I would also recommend to anyone who may be even slightly interested in this subject the review of Kent Hovind's free videos posted on www.YouTube.com ! Just type his last name into the search box and check out 20 debates with evolutionists, atheists and other scientists who attempt to argue in favor of evolution. Wow! I have listened to all 20 debates, most of them are over two hours long. Will probably listen to them again and again. Additionally, there are many free seminars taught by Kent Hovind right on YouTube.com.

Great book. I will be so happy once he is free and able to produce more great work. It is sad to see the amount of hate he receives for his beliefs, even though he does not hate those he debates with.

Wonderfully done. The science is well stated
