This is Rihito Takarai's second English-language release, with her first being *Seven Days*. She has also been published in French, Spanish, and German. Born in Hiroshima Prefecture in October, she's a Libra with an O blood type.

I read a lot of manga and this one really stands out. The author must have put a lot of research into the disorder the main character suffers from, OCD. The way the story unfolds helps you to have insight to this condition. I love how the romance between the two takes shape, looking forward to the next volume!

Another amazing volume. I can relate so much to the main character and I love the story. All I can say is that this is well worth the buy. If you're considering it, just get it! It's a fantastic read!

One of the series I read to tide me over. It started out more about the protag's OCD but shifted its focus to his relationship with the deuterag. I hope to see the focus resume on his treatment.

This is a good book

Wonderful!

A beautiful continuation of a beautiful story. This series has stood the test of time with me and remains as one of my favorite manga series' and couples ever. Takarai-sensei is an incredible story teller and artist. I view this as her masterpiece. With "Only the Flower Knows" as a close second.

Good

I can't express how much I love this series. Great story art, everything.
