Customer Reviews

"[The authors], who all have backgrounds in early childhood education, bring healthy doses of encouragement, research and guidance to their debut book. . . . [their] tips are specific, useful and up-to-date . . . in both their advice and the personal stories they share throughout the book, the authors make their enthusiasm for grandmas clear, and it's positively infectious. An excellent guide, full of friendly advice and inspiration for proud grandmas."

•Kirkus Reviews• "The Grammie Guide will increase your awareness, playfulness and resourcefulness. While you don't need a book to love your grandchildren, this one will definitely enrich the time you spend together!"

•Rahima Baldwin Dancy, author, You Are Your Child's First Teacher• "Where was this book when I was a new grandmother? It would have become my bible for grandparenting . . . a MUST for every new grandparent and a wonderful entertaining and helpful resource for those of us who have been

at it for over 20 years! • Katharine A. Perko, former Arizona County superintendent of schools • “In this rapidly changing and often stressful world . . . The Grammie Guide is just what grandparents need to refresh and update the knowledge and skills they learned from parenting their own children. • Diane E. Levin, PhD, coauthor, *So Sexy So Soon: The New Sexualized Childhood & What Parents Can Do to Protect Their Kids* • “The Grammie Guide gets back to the basics . . . It’s through the strengthening of imagination and role-playing that [children] develop a positive sense of self. This book gives grandmothers the know-how to form strong bonds with their grandkids . . . Truly a great tool based on sound child development research. • John Pina, PhD, child and family psychologist • “I loved it and was inspired by it! What a treat it is, so full of positive energy, creativity and fun. I have 5- and 8-year-old granddaughters and even though the book is technically for little ones, there are LOTS of ideas . . . to share with them. • Paola Gianturco, author,

She lives in Saratoga, California. Cindy Summers is a teacher who developed and implemented a cutting-edge program for mainstreaming mentally handicapped school-aged children into the public school system. I was disappointed in this book. I thought it would be full of ideas of things to do with my granddaughter, but it was primarily a rehash of child rearing theories that have been bestsellers since my own kids were small. When I got to the ideas for activities, there was nothing I didn’t already know about. And it was all told in a breathless tone that rang false. For instance, did you know that your grandchild can have fun in the kitchen with pots and pans? But don’t let them play with anything dangerous!

This is such a fun book! I got it for both of my new daughter’s grandmas. It’s got tips and tricks for

care, fun activities, words to sing a long songs with hand motions, and my favorite part is that it goes over normal behavior and how to react to it. Grandmas have forgotten a bit what babies and toddlers are like and newborn care guidelines have changed over the years. Both grandmas love the new baby but were at a loss as to how to play and interact with her so that trips to grandmas' house are lots of fun. This book addresses that for a variety of ages, and has some really simple and fun activities for grandparent time. It's just fine for grandpas too, even though the title is geared towards grandmas. There's special sections in the book just for grandpas. Easy and fun read as well.

This is packed with good ideas for activities, arranged by age and setting, as well as the comforting assurance that just giving our grandchildren our time and attention enriches their lives immeasurably.

Arrived in good time. Love the book with creative and easy ideas for spending time with grandchild.

This is a lovely book for young Mothers. It is informative, nicely written, attractive and is a nice gift.

Got this for a friend, glance at it prior to 'delivery';it's noteworthy and funny, and they claim helpful to date..

Bought as a gift for a first time grandmother friend. She was pleased with it.
