Customer Reviews

It wasn't what I was looking for, though there are good ideas within the cover.

This ebook provided some good ideas, however, I knew most of them already. It was worth the low price I paid

Just ok

This was not what I was expecting and it's very short

very good product~!!!!!!!!! love it

Just as I remember the old school rubric cube. I saw that this old pass time was coming back and swooped up this deal for my son as he gets into the newest fads and obsesses until he masters it...

Ok I may have got this too soon or perfectly timed cuz he was over it pretty quick. I received a discount in exchange for my honest and unbiased reviews. I would recommend because it works like the old ones used to.

Some good ideas I got it on the Kindle unlimited borrowing. I would not have been happy if I had paid for it but it had some good ideas

Handyman helper. No DIY ideas or home decor. Thought would have some nice projects by photos on cover but they are completely misleading. Need to know how not to paint your door knob while painting door? This will tell ya. Didn't read a page past table of contents. Joke.
