Customer Reviews

Lonely Planet puts out the BEST travel books.

The book was a requested order for a friend. Its what he wanted, he was happy. Packaging was fine.

It seems expensive for what you get. Provided lots of information, but I wish it talked more about sights and less about hotels and restaurants. Nice part is that it provides a variety of options depending on your price point. Also wished that it included more pictures of sights listed and a fold out map.

Okay, but outdated and lots of typos and other mistakes.

I'm a big fan of LP, I can't make a trip to a new country without their books in hand. However, this guide for Panama fell short. For example, reference to page numbers is often wrong. Regarding content, some of the recommendations were not as good as described, specially eating and sleeping in the City. I understand Panama is not a culinary country, but we were lucky to find better restaurants and hotels just by walking around.

This was the best of what was available. There isn't a lot to choose from

Great book. Very complete
