New to This Edition: Discussions of the impact of globalization, contemporary issues, and the financial crisis of the 21st century on career development. New technology sections covering web-based career guidance systems and the use of social networking for career guidance and job-seeking.

JoAnn Harris-Bowlsbey has enjoyed a distinguished career, including positions as high school counselor, director of guidance, university professor and career counselor, developer of DISCOVER[®] and Executive Director of ACT's Educational Technology Center. She is currently Executive Vice-President of Development for Kuder, Inc., and in that role designs and develops content for Web-based career planning systems. She is the author or co-author of many journal articles and several books. She is a past-president of the National Career Development Association and a recipient of its Eminent Career Award. Spencer G. Niles is professor and department head of Counselor Education in the Counseling Psychology and Rehabilitation Services Department at Pennsylvania State University.

Here is the problem. I am a graduate student in a Master's Counseling program. This is the first eText I have purchased. It still cost a lot. The publisher only allows it to be viewed on two devices - neither of those being my smartphone. I was planning on accessing this text on my tablet, and at times on my laptop, but my phone is always with me and those of you who have been in school (does that leave anyone out?) know you read every time you get a chance to keep caught up. I now have to lug a tablet with me everywhere I go. A tablet that doesn't have USB charging capabilities. So that puts a real crimp in my reading times. This is not okay for approximately \$95.00 for a book that I can't even resell now. This item needs at least 6 licenses and the ability to be read on a smartphone. I will rethink purchasing kindle textbooks for now. I know that is the road we are headed down, but Mr. Publisher, if you can't pave it with something better than dirt or cobblestones this is not a road I'm interested in taking. If you can pave in a more modern fashion, I will become interested in over paying you for Kindle textbooks again.

Can only view this book on the first device you open it in. I go between my iPad and my kindle for iPhone to read. Now I have to rent the physical text book, which costs me double so that I can get caught up as reading on my phone alone is not reasonable. I've NEVER had this happen with any book or text book. I have multiple devices and should be able to read on any of my devices registered to my name.

Pretty standard textbook....boring. Career counseling isn't exactly my thing as a clinician but I bought this book for school. I would imagine that if you are into career counseling you would enjoy this book much more than I did.

great read

I can not seem to enlarge the text in the kindle format of this book, which makes it very tiring to read on the eyes. Updates for this book must include formats with bigger text. This is making me rethink using my Kindle and purchasing ebooks for my time in grad school.

Small writing, very wordy in an unnecessary manner. Not at all interesting or inspiring...Reading this book would convince me not to go into the Career Development Field if it was my only experience with the field. Getting a Global Career Development Facilitator certification and training from the National Association of Workforce Development Professionals (NAWDP) would be better.

This textbook was extremely boring and actually discouraged my initial interest in career counseling. It read like one continuous story with very few headings and bullet points, and lacked clear emphasis on important points. What could have been an interesting subject came across as dry and boring. I am so glad I rented this instead of buying it!

This product arrived on December 27 2015 with damage on the cover particularly the binding on the outside of the book. Just want d to document so that when I return it I do not get charged for the damage.
