The Economic Collapse Chronicles Three-Book Box Set: A Post-Apocalyptic Novel Of America's Coming Financial Downfall

Synopsis

Matt and Karen Bair thought they were prepared for anything, but can they survive a total collapse of the economic system? If they want to live through the crisis, they'll have to think fast and move quickly. In a world where all the rules have changed, and savagery is law, those who hesitate pay with their very lives. America is on the cusp of financial annihilation and desperation pushes society to the brink. Government borrowing and monetary creation reach their limits and funds are no longer available for entitlement programs. The thin veneer of civility quickly gives way, revealing the brutal underbelly of humanity. Widespread civil unrest erupts across the country making cities unlivable, and forcing Matt and Karen to bug out to a more rural location. Matt and Karen will have to make the most of every resource and opportunity. They must stay alive long enough to adapt to the ominous nightmare that has become the new normal. The Economic Collapse Chronicles is a work of fiction . . . until it becomes history! This series, as with Mark's other books is an amazing read. Do not pass this up, you will not be disappointed. The nice thing about Mark's books is that I have not found a single bit of profanity. I would not be embarrassed to have his books laying around for my grand-kids, wife or even my mother to find and start reading. I have all his books in either Kindle, Audible or both. I am even considering getting the physical books, they are that good.

Extremely excited to delve into a post apocalyptic book series from a Christian Preparedness standpoint. We do not prepare out of fear, we prepare out of rational thought processes to derived from information gathered externally due to world events and our own observations. Very excited and very interested in this series. Hoping there is more to come!

Everything Mr. Goodwin writes is applicable and realistic when viewed through the lenses of scripture and current events. Take the time to read, you'll be glad you did!

These books are great I could not put it down each page was a new adventure Mark paints a vivid picture of the events I could relate to the story line in that these things could happen this way.

Really enjoyed this series. Got me really thinking. And some good tips and information for preparedness sprinkled throughout.

The detail is amazing and thought provoking. Is it already too late for America to survive? We need to wake up and clean house before there is no house to clean.

Great book by a good author. Strong values and points out many flaws with our country. Highly recommend to all.

This book, although fictional, makes you think hard about where we have gone as a nation. Scary to think about.
