Moving Day! (Helping Hands Series)

Synopsis

We're moving house! Who's going to help with the packing? What do we need to keep, and what can we give away? Helping with real tasks is a natural progression from pretend play, and is a crucial stage in a child's development. Achieving a shared goal encourages a sense of responsibility, and develops many skills useful in later life. Simple conversational text and lively illustrations are carefully designed to encourage further dialogue between reader and child.

Customer Reviews

Lovely book that helped our three-year-old son understand our recent move. I bought it hoping it would familiarize him with the process of moving so he wouldn't be as nervous about the boxes in our house. I didn't have high expectations, but I was amazed at the result. Not only did he beg me to read the book over and over, but he pointed out parts of the story as we did and excitedly talked about his "new house" and "put boxes in the truck!" By the time WE had a truck, he really got it. Wow! The only reason I didn't give it 5 stars is because it is a little hard to follow because of how it jumps from each character's perspective without notice or speech tags, but that's a nit-picky thing. It's a sweet story and was very helpful with our move. I highly recommend it!

GREAT addition to grandson's library! Not negative, all fun and upbeat!, and really nicely written. We

really liked how this book helped to inform our 2 year old grandson about his house moving experience. A very successful find for our family!

pictures suck, it does not even show the loading of the moving truck

My 3 1/2 year old son loved this book. We read it several times before our move and I think it really helped prepare him for what to expect.

This book is good for starting the conversation with your small child if you are about to move. The illustrations are fine but the text is not sufficient.

Kind of a random book, but my son likes it and it did help him understand how the moving process would go.

Good book for little one who are in the moving process.

Great way to help little ones understand & the pictures are great!
