Customer Reviews

I LOVE Asian food, and Korean delicacies especially, with their fiery, garlicky appeal. They are as healthy as they are robust in flavor, and so unlike the typical American diet. As a closet nutritionist myself, I was delighted to peruse the recipes, from salads to soups, meats to desserts, including a generous listing of typical ingredients used in Korean cooking. The only suggestion I would have to make this book a 5-star winner would be to make the cover in color and reformat the Table of Contents to segregate the sections more clearly. Otherwise, the content and writing are superb.

Korean cuisine is one of the most fashionable trends in cooking today. Book "Easy and Delicious

Korean Cookbook" contains many recipes that really can be quickly and easily cooked. Some of them are known to me. But there are unique ones. I very liked Korean Beef Curry and Spicy Chicken Stew. These dishes are incredibly delicious and are giving real pleasures my family. Great book!

So many delicious recipes. I really miss living in Korea and this recipe book is fairly simple to follow and fix many of my favorite dishes. It will be hard to follow these recipes if you cannot get some of the items so you either need an Asian market near you or just order the products online from . Some dishes also need special equipment but there are ways around that if needed.

Excellent book. I was in winter in Asia and this is amazing country. Especially I liked the Asian cuisine. More precisely, Chinese and Korean cuisine. As soon as I returned home I decided to try to cook Korean food myself. And this book helped me a lot. So if you want to know what Korean cuisine is, then it's worth visiting Korea or just making one of the recipes from this book.

Korean cuisine is rich in seasonings and spices. I love it! The book contains tasty recipes and new cooking ideas. Everything I have made has been delicious. I made the BBQ Chicken tonight and it came out perfect. Can't wait to try other recipes.

At first I thought 40 is too few but then when I tried a few dishes, 40 is a lot! Best to study this for people who would like to go to Korea. I like Koreans. Yay! Good recipes and easy to prepare.

An excellent cookbook! All the recipes are matched! Without superfluous words, everything is clear and correctly written! The author well done!
