Customer Reviews

This book functions as a map of personal assessment and review based upon the individual's lifeline using numeric computation. Helpful information and meaning from the numbers is based upon facts, i.e. birth date, etc. I love the exercises that give me control of the outcome, meaning and growth potential from my specific personal data. I highly recommend this book in the reader's search of self. Pat Holland Conner, author "Doorways to Significance" and "Becoming Significant"
