Light Of The Andes

Synopsis

Dr. J. E. Williams gives us an unforgettable story of the sacred way of the Q'ero, an indigenous people of the Peruvian Andes. In the highest mountains and heartland of the Q'ero, and at immense personal risk, he is taught a beautiful, inexorable value system that goes back to a time before the Incas. The mystical landscape of the high mountain wilderness fosters personal transformation. As he ascends to the roof of the world, Williams weaves the true secret of the Andes into the archetypal personal spiritual pilgrimage, an authentic journey of the heart, and brings back the message for our times.

Customer Reviews

I am sitting on my patio with a view of gardens and beyond that the lake/river and there is a light rain falling. I have just finished "Light of the Andes" and possibly because of this book I am aware of a feeling of oneness with Nature with this beautiful scene around me maybe more so than usual. At the moment I know this is an important book for me and I feel I will find that it is life changing. ..."

When the student is ready....."Thank you Dr. Williams

I felt like I was watching the author out of the window from the beginning of the journey until the end. The book is worth the money. I couldn't put it down till the end. Now I'm curious about Santiago's next journey to the mountain. By the end of the book Santiago and Sebastian became intimate characters in my mind. I only hope to meet them someday in person and learn from their great planetary based wisdom! One last thing, I wish there were more people like Santiago and Sebastian in this world. What a beautiful world that would be huh.
