Hornet's Nest: A Post Apocalyptic EMP Survival Fiction Series (The Blackout Series Book 5)

Synopsis

When you poke the hornets' nest, ya better make dang sure you kill 'em all. If you don't, you're gonna suffer their wrath. In a post apocalyptic world ... You will face adversity ... You may be threatened by forces greater than yours ... Will you have the strength to overcome evil? This fast-paced post apocalyptic dystopian fiction series from author Bobby Akart (The Boston Brahmin series and the Prepping for Tomorrow series), has been hailed as a masterpiece of EMP survival fiction. Prepare to learn, as well as be entertained as The Blackout Series continues with SHILOH RANCH. In book one of this new post-apocalyptic survival fiction series, 36 HOURS, the reader was provided a glimpse into the rapid decline of society once word of the catastrophic solar flare racing towards Earth began to spread. Book two, ZERO HOUR, thrust our characters into the perils of a post apocalyptic world. At Zero Hour, an EMP caused by a massive solar flare left America in darkness. The Ryman family, who weren't preppers, applied common sense, logic, and a will to survive to their decision-making as they faced their death, their neighbors, and the depravity of man. In book three, TURNING POINT, the characters face a life altering decision - should we stay or should we go? The oldest and strongest emotion in man is fear, and the strongest kind of fear is fear of the unknown. Will Americans flee the urban centers, the proverbial golden hordes, for the countryside? Will it be safer than the cities? TURNING POINT will lead the Ryman family into a complex, inexplicable world where danger lurks around every bend. SHILOH RANCH brings the Ryman family to their bug-out location where they quickly learn that the grass isn't always greener on the proverbial other side of the fence. They quickly learn that there is one constant in a post-apocalyptic world - the threat from their fellow man. But without taking a risk, there cannot be reward. But what happens when you cross the line? HORNET'S NEST, book five in The Blackout Series, tests the mettle of our characters. Will one success lead to devastation for them all? Is it possible for an unlikely group of heroes to band together to defeat an evil which had plagued a small community for decades? And if they are successful, how do you build a world shattered by the devastating aftereffects of a massive solar flare? Note: This book does not contain strong language. It is intended to entertain and inform audiences of all ages, including teen and young adults. Although some scenes depict the realistic threat our nation faces from a devastating solar flare, and the societal collapse which will result in the aftermath, it does not contain graphic scenes typical of other books in the post apocalyptic genre.

BOOKS IN THE BLACKOUT SERIES:
BOOK ONE: 36 Hours
BOOK TWO: Zero Hour
BOOK THREE: Turning Point
BOOK FOUR: Shiloh Ranch

Customer Reviews

Hornet's Nest, the fifth installment in the Blackout series, is an exciting and entertaining read. I found myself unable to put it down until I had finished the entire book. Full of twists, turns, and captivating intrigue this book is well worth the money I paid for the Kindle version. I also plan on purchasing the print version very soon. Very few books earn a place in my exclusive collection of print books, but Hornet's Nest as well as the rest of the Blackout series earns their rightful place in my collection. I am anxiously awaiting the release of the series finale Devil's Homecoming. Thank you Mr. Akart for many enjoyable hours of entertainment and enlightenment!

Another great book from Bobby Akart. The action backs right up where he left off in Shiloh Ranch. And of course this being a Bobby Akart book the cliff hanger at the end of this one is his biggest to date and explains the title for book 6 Devil's homecoming.

An excellent fifth book to a fantastic series! Without a ton of gory details or language, both me and my young boys love this series. The action, the suspense, and the excitement just pulls you in and doesn't let go. A great series for those who are learning to protect their homes and families. I wholeheartedly recommend this book, this series, and can't wait for the next installment. Very well done!

I've learned that the only difference between winning and losing is not quitting." And that is what the members of Shiloh Ranch and their friends are learning in Bobby Akart's newest Blackout sequel, Hornet's Nest. Bobby again takes us on a non-stop action ride with our young heroine Alex, as the decision is made to take back their town and county. This involves, in typical Bobby Akart fashion, learning devious ways to fight, teaching how and when to fight, and especially where the fight needs to be to give the outgunned, out matched Shiloh/Hornet Team a "fighting" chance to rout Ma Durham and her son, Junior. The book moves fast, at times gut wrenching, funny and forcing some "yeaahs" out of me. And wow, what a twist! Well done Bobby Akart! And as a side note, last couple of days we have travelled the route Colton and family took from Nashville to Shiloh, stopping to see places they went to. Such fun!

Another great addition to this awesome series. It started fast and never let up. I've thoroughly enjoyed every book in this series. The characters are so well developed I feel like I truly know them. The only bad thing about this book was that it ended:) Great job Bobby.

I was so excited when Part 5 came out. Finally, I got to see what happens next. As our Saga continues, we are learning valuable lessons on what to do when the SHTF. The author is showing us what happens when you do make mistakes. We definitely do learn from our mistakes and thank goodness it is the Ryman's and not us first hand. We are also learning that the old rules/laws/ and yes morals need to be thrown out the window to survive from people wanting to hurt and kill us. There are no rules on what another person can do to another. It is a shame that fellow Americans, neighbors and family can do to people. NO spoiler alert here but I really want to tell you. I find myself as part of the group while reading this series. The words bring you into the situation and you feel, see, and yes, even smell what is going on (I don't need to know that a stall needs to be clean or what a one week old corpse smells like. Words are an amazing thing.) There were parts of the book where I caught myself yelling at the characters telling them what to do. I am now waiting impatiently on what is going to

happen to Junior. if they Ryman's and the crew are going to follow a bunch of teenagers who seem to adapt faster to this new life. You will love this series. I have said it before and will say it again. This author isn't just a writer, he is a story teller.....and this is one heck of a story.

Hornet's Nest, the fifth book in The Blackout Series, stirs up a flurry of emotions. The Ryman family has been struggling since a Coronal Mass Ejection destroyed the power grid and life as they knew it. Young daughter Alex continues her transformation into a force to be reckoned with. The action is fast and furious and the pace unrelenting. The ending leaves you clueless on how the Ryman family will survive.

HORNET'S NEST After reading the previous book in the series I was convinced the scum that ruled Savannah would swarm out over the land and enslave the local farms and ranches, esp. given Ma Durham's last words in the previous episode. But, was I ever wrong Hornet's Nest takes you on another adventure of the Ryman family and their old and new friends in attempting to outwit the tyrants, save their neighbors, and exterminate the evil within. It will take you to highs and lows, and you will be relieved only to be set back on your heels, it teaches to never give up, but also never be sure of what tomorrow will bring.
