Customer Reviews

What can I say except that it was a necessity. The way the book is laid out is logical and builds upon each chapter. You can easily reference something by looking at index or even the table of contents. Book was in great condition from seller.

Great Job, no problem with these people.

Very clearly written unlike some books I've encountered in other accounting specialties.

Seller is 5 stars. Author of book is confusing and contradictory at times

What can I say? I did not choose accounting, it chose me. This book was exactly as described and came relatively fast.

came as described

Item was as described. It is used but in like new condition. My prof decided to use a different text book at the last minute, but this one was only about \$15 so it was not a huge loss. It still has a lot of usable information.

The book is in good conditions, is just what I needed, and it arrived on time. I would recommend this seller. thanks!!!
